

## Inversion of Ethereal White Stars

Inquisition

Rise above the mystical ones  
Shining throne that ignites the skies  
From its life shall come its death  
I invoke the inversion of stars

Astral songs are the hymns of war  
Mass of black energy reigns  
Through the holes of cosmic worms  
Like a god in the valley of moons

Black sun rays of the throne - lord of the eternal fire  
Black shadow of the skies - king of the ancient star

As I chant to the primal night  
Wizards mourn to the ending of times  
White stars fall through the cosmic eye  
Golden horns now bray up high

Black sun rays of the throne - lord of the eternal fire  
Black shadow of the skies - king of the ancient star
