

## Daisies

Insane Clown Posse

Dreadful dust, gloomy sun  
All blank, matter gone  
Lifeless, vast, all done  
Nature & trees, fallen  
Gray skies, death, dead air  
No where, nothing's here  
Except me I'm in luck  
Or am I, so fucked  
Loom searching, no man  
Time unwind, shits so bad  
Where it all go?, vanish  
Replaced by agony & anguish  
Flat surface meets the eye  
In every direction I tried  
Though hazy I see something crazy  
A yellow dot of a daisy

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive

Everything changed when I saw this  
Blinking in the distance, flawless  
In my world of dust & plains  
The sight of color rushed blood in my veins  
It stood out flashing again  
I can see it faintly calling me in  
Like a lighthouse for a ship in the fog  
I got excited & started to jog  
Towards it "What the fuck is that?"  
Came up on it fully attacked  
Growing up out of the sands alone  
Sprung for nothing, bringing it on  
I smelled it like magic cane  
For ya' it blew life straight to the brain  
I haven't smelled anything for years  
A new beginning is what this is

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive

I stand right here, near this  
This shit means life exists  
It all dried up, cold, tragic  
Until now, a beautiful magic  
Another chapter, a new chance  
Light in the dark here to advance  
The dawn will come life will flourish  
As sure as it parished yesterday  
And is there more around?  
Somehow spurtin' up out of the ground  
I thought this planet was done  
A dead rock floatin', abandoned  
I couldn't stand it, dammit, hopeless  
It all changes now that I know this  
What brought this here?  
Who?  
Decided it's time for the new  
The yellow head & green stem  
Tomorrow what would this mean to them?  
Picture a jungle standing in the middle  
It all start's right here with this one little  
Daisy  
Daisy  
Daisy  
Daisy  
Daisy

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive

Oh shit I've seen a beaming of a daisy  
Unknown to survive  
It's amazing  
Look motherfucker look it's a daisy  
Unknown to survive
