

# Walk into the Darkness

Insane Clown Posse

In the name of the witch  
I cut the head off a mule I guetted it out  
Put it on and then I wore it to school  
That ain't the only thing I wore  
I wore a clip and some rounds  
A fuckin killa with this mule head  
And I'm clippin' em down  
Because I'm all outta choices  
And my voice is unheard  
You and your boys get the worst  
I aim your forehead it burst  
I'm evil  
Fires in my sky  
I see no diamonds it's true  
Aim for you guts and blow your breakfast out behind you  
I'm one with the darkness

R: Walk into the darkness  
A place for those who chose to give a fuck less  
Wicked dark and heartless  
We keep it nutty and bloody for everybody here  
I'm going to hell  
And I'm knowing it well  
And I got no problem showing it and going to jail

I see the witch is preaching every night on channel 13  
He wants some money with the number on the screen  
I hit the scene  
I'm shootin' up somebody's funeral  
Someone I don't know  
My thoughts are fried with homicide  
I fire out of control  
The preacher tried to reach his caddy in his mink white robe  
But now hes like a sheep slaughtered on the side of the road as for that cro  
oked choir  
I set that place up on fire as they came out  
Batted their heads like I was Mark McGwire  
I'm in the darkness

R:

Walk till you fall into the darkness of hell  
You gettin' raped in hell by Satan's tail  
And all you bitches, witches, pussies  
Believe you gettin' fucked by a 27 foot dragon while chewing your face up  
It ain't pretty in hell  
And the only light be the fire that you squirm  
In while you burning all night and then the wraith take you  
His grip is hard as a nail  
He'll turn your world upside down and make it rain hell

Walk into the darkness  
He'll turn your world upside down and make it rain hell  
Wicked dark and heartless  
He'll turn your world upside down and make it rain hell  
Walk into the darkness  
He'll turn your world upside down and make it rain hell

Wicked dark and heartless  
He'll turn your world upside down and make it rain hell  
I'm going to hell  
And I'm knowing it well  
And I got no problem showing it and going to jail
