

Insania

Here I stand and you don't see my fear  
I hear you screaming for more, more, more  
I know what you want I know how you feel  
The loud is what you're living for

Raise your fists tonight no boundaries  
Join this time cigarettes 'n' alcohol  
Never stop, always on and on  
Never stop to scream for rock'n'roll

Beware and stay what your are  
Beware the mania  
Beware and stay what you are  
You are Insania

All the time since the day that I was born  
My behavior was a misery  
Kicks aside my life was just a fall  
No place for me in this society  
No, never stop we're playin' through the night  
No one will stop us and no one will take our force
