

Ephemeral

Insomnium

Darkness is ignorance, knowledge is light.
Fight only with yourself , or the shadows of the night.
Darkness is ignorance, knowledge is light.
Fight only with yourself, or the shadows of the night.

For this life will break you, years will wear you down.
wear you down.
And everyday you die a little,
until the shadows will take you, shadows will take you .

Dying doesn't make this world dead to us
Breathing doesn't keep the flame alive in us
Dreaming doesn't make time less real for us
one life, one chance, all Ephemeral

Darkness is ignorance, knowledge is light.
Fight only with yourself , or the shadows of the night.

All the pain and suffering, will dispirit or feed you.
dispirit or feed you.
For each and every time your failures will craft you
when the fear of them is gone

Dying doesn't make this world dead to us
Breathing doesn't keep the flame alive in us
Dreaming doesn't make time less real for us
one life, one chance, all Ephemeral

we stumble and hover
at the edge of the world
one life, one chance that's all we have
never walk away, turn your back on yourself
one life, one chance that's all we have

Dying doesn't make this world dead to us
Breathing doesn't keep the flame alive in us
Dreaming doesn't make time less real for us
one life, one chance, all Ephemeral
