

Honesty always remained a priority  
Lest we forget our integrity.  
What happened ? Where has it all gone?  
So go on - Go on thinking you're teaching me.  
I'll keep my secret identity.  
No one needs to know what I'm feeling even though  
I feel like an alien who needs to get back home.  
So I won't sit and I won't wait or cater you myself  
I wanna say "Stop time. Don't leave me here."  
Puppetry and hyper-ambition, you're on a roll!  
I think the word is delusional.  
I know it won't mean much but I tried to be your friend.  
Gee-Look where that got me.  
I think I'll write a letter cause that's much  
better than dealing with your shit.  
So I won't sit and I won't wait or cater you myself  
I wanna say stop and look at yourselves  
You're losing it and you might lose me as well.  
And this is what you wanted?  
This is what you told yourself all along?  
And now you've got it.  
Consider that it might be wrong.  
This is what you wanted.  
This you told yourself.
