

Never had a day when I pretended
I loved all the things in life we blended
And you sometimes my bad rhymes are intended
Forgive my way

I'll write a plea down here and then I'll send it
I'll try to keep this brief ''Please don't end it''
On knee that is well and truly bended
Forgive my way
Maybe it was my fault all along
'Cos I'm constantly talking in pictures and song
And for anyone else this would be
The best days of his lifetime
But not for me
It's just Wednesday
Or some other day
Forgive my way

I dreamed I saw a million people dancing
To some tune me and someone else were chanting
I wake in time to hear the front door slamming
Fly away

The message that you left me is still playing
I sit and listen to the words you're saying
I even had to put a brand new tape in
My answer machine

It's just Wednesday
Or some other day
Forgive my way
Forgive my way
