

Wasteland

Institute

They got airplanes
Flying over you
You cannot escape
See them watching you?
Be paranoid
They have lists
Walls are listening
They know what you did

Love is stronger then hate
We are always on planes
Find that love in a wasteland
find space in everything you can
Find that love in the wasteland
Find space, find space

tears through happiness?
While she's hanging out with you
From a shadows
Life comes through
Be ready then
It could be anytime
If they come for you
Let them see you shine

Love is stronger then hate
We are always on planes
Find that love in a wasteland
find space in everything you can
Find that love in the wasteland
Find space, find space

got to find my way out of the wasteland
who is fast as I am
Find my way out of the wasteland

They got airplanes
Flying over you
You cannot escape
You cannot escape
You cannot escape

Find that love in a wasteland
find space in everything you can
Find that love in the wasteland
Find space, find space

Find space in everything you can
In everything you can
Can't you find my out of the wasteland
Can't you find my out of the wasteland
