

dreams forgotten  
lives lost long before  
angels final war  
stolen innocence  
kept within eternities  
serene screams  
shapeless shadowed forms  
take flight upon  
blackened wings  
like a dream  
final light  
fallen grace  
blanketed belief  
all my life  
I've loved you  
now you betray me  
loyal return deceived  
the reek of human blood  
brings laughter to my heart  
taking back their love  
with each one torn apart  
blessed for eternity  
final light  
fallen grace  
draped in deceit  
all my life  
I've betrayed you  
now you love me  
read the lie in believe  
the reek of human blood  
brings laughter to my heart  
taking back their lust  
with each one torn apart  
cursed for eternity  
tear pour oceans of blood  
neglected vengeance  
unleashed  
reigning down from above  
severed wings impaled  
forever  
left for dead  
lights burn out
