

## Bringing It Back

Integrity

To a time when this was all mine  
We fought for this land,  
No one can say otherwise  
Approached in fear, fled when we came near  
You knew the boundaries, and you stood clear  
Bringing  
It  
Back  
Fists of truth  
Bringing  
It  
Back  
Wrapping that chain around their throats  
What once was pure  
Now plagued by your disease  
My hate for weakness burns through me  
And to the survivors lost in the shadows of our tree  
This scene shall once again fall to its knees  
Bringing  
It  
Back  
Your misery  
Bringing  
It  
Back  
One life...  
Drug free  
Watching day after day I see this world destroying itself with  
hate  
As you sink to the hell you belong in  
Nothing left for you  
Nothing left but...  
Regret.
