

## Systems Overloading

Integrity

Looking around on these streets  
There`s nothing lleft to do  
Penance through your charities  
Now it`s turned on you  
Demons looking in on me  
Slipping through the cracks  
Watching, starving, waiting  
Timing their attack  
Beyond the flesh that imprisons  
Beyond the death you`ve invisioned  
Beyound the fear you`ll embrace  
Giving your life a foul taste  
System`s overloading  
Fear envelopes me  
Cry out for redemption  
Blind, forgotten - seen  
All the while fighting  
Trying to get on top  
Once the focus changes  
All your senses...  
Stop.
