

Pace Is the Trick

Interpol

You can't hold it to tight
These matters of security
You don't have to be wound so tight
Smoking on the balcony
But it's that sleaze in a park
You women you have no self-control,
The angels remark outside
You were known for insatiable means
I don't know a thing

I've seen love, and I followed the speeding of starlight
I've seen love, and I followed the speeding of starswept night

Yeah pace is the trick

And to all the destruction in men
Well I see you as you take your pride
My lioness your defenses seem wise I can impress
And detentions are demised, my lioness
Can't you hurt it some, think I hurt it

I've seen love, and I followed the speeding of starlight
I've seen love and I followed the speeding of starswept night

And now I select you, slow down I let you
See how I stun, see how I stun
And now I select you, slow down I let you
See how I stun, see how I stun

And to all the destruction in men
And to all the corruption in my hand
And now I select you, slow down I let you
See how I stun see how I stun 3x
And now I select you, slow down I let you
I always follow the speeding of starswept night
You don't hold a candle 4x
