

## Blame

Intwine

Someday I should decide  
Will I go on, living this lie  
Feels like we're lost in time  
With memories best left behind  
You don't need to say  
This torment caused can't be explained  
You don't deserve this pain  
Not who I was  
Sorry I've changed

You don't know me anymore  
Come and treat me like a whore  
don't you know youre too precious  
To deal with this pain  
And Im to blame

Please don't say what's on your mind  
There's no real truth to find  
If we only knew how to deal  
With what I do  
You'll find another way to wake and live  
A brighter day  
You don't deserve this pain not who I was  
Sorry I've changed
