

Feel Free

Intwine

Somewhere near these dirty roads
Lies a path that leads me there
Where it goes, hell if I know
Lets just go no time to spare

Feel free
To do whatever you please
Feel free
To do whatever

This is the place where I feel free
(I feel free to make a choice)
This is where I filter out
(what disturbs my inner voice)
When your options become clear
Don't hold back
Fear is what you need to use
Be yourself in what you choose

Feel free
To do whatever you please
Feel free
To do whatever you please!!!!

Hey, alright
Lòs e pa mi!

What did you never want
Losing your mind
'Cause what you've got is a hard thing to find
.....
The only thing that you couldn't leave behind
Who do you really-eally wanna impress?
You're so concerned, so concerned 'bout the rest
I never let nobody tell me what to do
.....

Feel free
To do whatever you please
Feel free
To do whatever...
