

Today

Intwine

As the sun beats down on me
And I look at everything,
You gave me, babe, you made me feel
Nothings seems to matter
As we walk along the edge of what he wants now where to go

I have become my worst enemy
Dont know why I lived so long anymore
Catch me as I fall down the stairs
Everyday

Shine on me before, you go away, one day
Smile at me one last time before, before you go away today, today, today

Now its raining down on me
I dont care cause we have seen it all together,
You and I
Staring at the shadows
Dancing up and down the walls
Of places we have been too long

I have become my worst enemy
Dont know why I lived so long anymore
Catch me as I fall down the stairs
Everyday

Smile at me one last time before, before you go away today
Smile at me one last time before, before you go away today, today, today

Today was the greatest day of all
Today was the greatest day of all
You smile at me before you go
Before you go
Before you go
Before you go
Before you go
Before you go
Eay!

Smile at me one last time before, before you go away today
Smile at me one last time before, before you go away today, today, today
