## Today

As the sun beats down on me And I look at everything, You gave me, babe, you made me feel Nothings seems to matter As we walk along the edge of what he wants now where to go

I have become my worst enemy Dont know why I lived so long anymore Catch me as I fall down the stairs Everyday

Shine on me before, you go away, one day Smile at me one last time before, before you go away today, tod ay, today

Now its raining down on me I dont care cause we have seen it all together, You and I Staring at the shadows Dancing up and down the walls Of places we have been too long

I have become my worst enemy Dont know why I lived so long anymore Catch me as I fall down the stairs Everyday

Smile at me one last time before, before you go away today Smile at me one last time before, before you go away today, tod ay, today

Today was the greatest day of all Today was the greatest day of all You smile at me before you go Eay!

Smile at me one last time before, before you go away today Smile at me one last time before, before you go away today, tod ay, today
