

# Faith In Each Other

INXS

All the people  
In this world  
All the people  
In this world  
I gotta tell you it's alright

Look at the cover  
Of a magazine  
The pride of a nation  
They're down on their knees  
I gotta tell you  
Let the people speak  
I gotta tell you

Yeah, you got to have faith  
In each other  
All you ever, all you ever  
Have for each other

They give us a reason  
To go on living  
It's all in the choices  
That you have to make

I got to tell you  
You better make them good  
I got to tell you

All you got to have faith  
In each other  
All you ever  
All you ever have for each other

All the people  
In this world  
All the people  
In this whole wide world  
I gotta tell you  
Let the people speak  
I got to tell you

All you got to have faith  
In each other  
All you ever  
All you ever have for each other

Faith in each other  
Faith in each other
