

## Just To Learn Again

INXS

Back in time where fear can't climb  
Warm and safe with a nursery rhyme  
They will put your feet in very hot water  
With your senses in a cloud  
You make them rich and very proud

All those years of learning  
Just to learn again

No talk of love or jungle law  
The tender heart we will ignore  
And once again and once too often  
The misled aims of twisted teachers  
Turns your life and face and features

I've come to see your honesty  
And ideal plans and security  
Softly the voices are speaking to me  
Your fault son that you've been done  
Now your lessons have just begun
