

Searching

INXS

I am searching
I am not alone
I am searching
Please, give me some

Have we lost direction
Washed our hands of blood
I'm in need of sensation
Is there more to this love

Saw a mother screaming
She had lost control
Of what she once believed in
And she was not alone

If you could face the pain
And I could do the same
It would be clear tomorrow
But will it start, but will it start again

I am searching
I am not alone
I am searching
Please, give me some

Saw a mother screaming
She had lost control
Of what she once believed in
And she was not alone

Have we lost direction
Washed our hands of blood
I'm in need of sensation
Is there more to this love

If you could face the pain
And I could do the same
It would be clear tomorrow
But will it start, but will it start again

I am searching
I am not alone
I am searching
Please, show me some

I am searching
I am not alone
I am searching
Please, show me some

Love
