

Making up my life
Killer in the night
Rattling my brains
Looking for that light

Shine, shine
Ah shine so bright, shine

When does that thing
I want to breathe her in
Throw away my world
If I could see that pearl

Shine, shine, shine, shine
Shine, shine, shine, shine

The skin is deep
But your oh so weak
Don't put your faith
In the words they speak

The skin is deep
But your oh so weak
Don't put your faith
In the words they speak

Gimme gimme reason for the things I do
Silhouette I'm seeing in the shape of you

Gimme gimme reason for the things I do
Silhouette I'm seeing in the shape of you

Shine, shine, shine
Shine, shine

When it does that thing
Killer in the night
Rattling my brains
Looking for the light

Shine, shine, shine, shine
Shine, shine, so bright

Gimme gimme reasons for the things I do
The silhouette I'm seeing in the shape of you
