

# Into The Mouth Of Madness

Iperyt

Let's fuck the life from behind  
The madness calls for an answer  
The injection of insanity

Let's fuck the perverse tango star  
In every hole possible  
A brutal rape of normality

We dance on the edge  
Crossing the boundaries, rejecting fucking control  
Spitting at the face of the world, total abuse  
Vomiting with disgust, ready to kill  
Revelation of rabid ferocious will

S.I.C.K.

We find the real beauty  
Among the ruins of existence  
We transgress and evolve  
Through self-induced possession

Let's fuck the life from behind  
The madness calls for an answer  
The injection of morbidity

Let's fuck the perverse tango star  
In every hole possible  
A brutal rape of sanity

Upon the nihilistic wings of perdition we fly  
Across the starless sky of negativity  
Wreaking havoc upon the miserable existence  
We look into the abyss knowing well  
The abyss also looks into us

Into the mouth of madness  
Adoration of negativity  
Into the mouth of madness  
Fuck the life and sanity
