

Scorched Earth Creed

Iperyt

There comes New Order, crush the opposition!
Hatred reaches to extremes bringing sea of suffering.
Now we're to decide your fate,
let your temples conflagrate.
There is no equality there is none to set free.
Obey or die - your only choice.
Your free will's no fucking more.
Tolerance is forgotten,
no one can feel safe in the realm
controlled by Devil's hand!

Scorched Earth Creed! Scorched Earth Creed!

Hatred reaches to extremes bringing sea of suffering.
Now we're to decide your fate,
let your temples conflagrate.
There is no equality there is none to set free.
Obey or die ...your only choice.
Your free will's no fucking more.
