

Wolfcalls

Iperyt

Obtrusive minds, scornful ones, abhorring your disgusting lives
!

We spit on your so-called normality

We spit on your so-called morality

Wrathful souls, malicious wills,
praising destruction and life of sin.

We are salt in the wounds of today's society,
thorns in the heads of the leaders of the weak.

Dodless scream of inner strength,
hate-inspired way of man.

Those of anti-social pride and the only ones to survive.

Fuck your sheep mentality.

We all wish you painful death.

You're not supposed to follow me.

Die you worthless piece of shit!

Wolfcalls - eternal scorn

Wolfcalls - the path of war

Wolfcalls - malevolent seed

Wolfcalls - will make you bleed

Contemptuous wrath - blessed be the strong

Superior breed - beyond the conscience of you all

Abominators - of everything you are

Mockery stars - pissing on your vulgar mass

Inflexible - adorers of your fall

Merciless - sitting upon the highest throne

Predators - stronger with every day

Oppressors - the beast is on its way
