

## It All Stops Here

IQ

I can feel the movement  
Growing all around me everywhere  
I can hear the language of the revolution every day  
If you pledge to join me  
We can fight for reason everywhere  
All the things we wished for  
Are ours for the asking anyway  
Many years ago we lived here  
All too soon our hopes were drowned  
Now as if I never knew you  
Life goes on in different towns  
And I can walk round you, past you, through you  
Because you're only ghosts now  
Yes, I can walk round you, past you, through you  
Because you're only ghosts now  
Somehow in this silent city  
A little of us still remains  
Mingled with the distant laughter  
Fused with dust in future rains  
And I can walk round you, past you, through you  
Because you're only ghosts now  
Yes, I can walk round you, past you, through you  
Because you're only ghosts now
