

# All Night

Iration

Clock strikes one, I watch you all night long  
Moving up slow, I never lose control  
Are you in the mood?, just let the bass line run  
Cuz I just got to know, why are you all alone

Because at night you play but the man never holds you down  
That's why I gotta hold back now  
Despite the game I stand still while you move it round  
That's why I'm gonna hold back now

The way ya move in the light, ya make a man feel right  
A cold hard glance, any man got a chance  
But never one can stay, so let the roots band play  
Cuz I just got to know, just why you're all alone

Because at night you play but the man never holds you down  
That's why I gotta hold back now  
Despite the game I stand still while you move it round  
That's why I'm gonna hold back now

Clock strikes one, I watch you all night long  
Moving up slow, I never lose control  
Are you in the mood?, just let the bass line run  
Cuz I just got to know, why are you all alone
