

# Electricity

## Iration

It's hard to say, just how it  
feels, but I know when it's not  
and I know when it's real  
It's  
hard to describe this feeling I  
got,  
but when I'm with you, I  
feel it a lot  
Lyrics to Electricity :  
It's hard to say, just how it  
feels, but I know when it's not  
and I know when it's real  
It's  
hard to describe this feeling I  
got,  
but when I'm with you, I  
feel it a lot

When it's just  
you and me Electricity  
It's easy  
to see Electricity  
When it's just  
you and me  
whoaaa  
Electricity

I like the way you  
move, when you walk my way  
I like  
the way you kiss, I like the  
things you say  
It might be your  
lips, It might be you thong, you  
don't need a switch to turn me  
on

When it's just  
you and me Electricity  
It's easy  
to see Electricity  
When it's just  
you and me  
whoaaa  
Electricity

I like the way you  
move, when you walk my way  
I like  
the way you kiss, I like the  
things you say  
It might be your  
lips, It might be you thong, you  
don't need a switch to turn me  
on
