

Falling

Iration

We met at a concert, you were
Wearing converse,
I'm not good at playing it cool.
You said I was funny,
I spent all my money,
Then your friend got thrown in the pool.
When we said goodbye,
Know that I can't lie,
I never thought I'd see you again.
Man was I mistaken,
Now my heart is taken,
It's too hard to comprehend.

That I'm falling,
Hoping that you feel this way too.
Said I'm falling,
Sitting here waiting for you.

Expert of illusion,
I just kept to using,
Thought I had it all worked out.
Love was just a stage name,
Watched it as it became,
Something I could live without.
Then to my surprise, you opened my eyes,
I thought I was empty inside.
Now every time your near,
Stormy skies become clear,
Now there's nowhere left to hide.

And I'm falling...
Hoping that you feel this way too.
Said I'm falling,
Sitting here waiting for you.

Said I'm falling,
Hoping that you feel this way too.
Said I'm falling,
Sitting here waiting for you.

Falling,
Hoping that you feel this way too.
Falling,
Sitting here waiting for you,

I'm fallin, fallin
Hopin that you feel this way too.
Fallin, fallin,
Sitting here just waiting for you.

Falling,
Hopin that you feel this way too.
Said I'm fallin,
Sitting here just waiting for you.

Said I'm falling,
Hoping that you feel this way too.

Said I'm falling,
Sitting here waiting for you.

Falling,
Hoping that you feel this way too.
Falling,
Sitting here waiting for you,

Said I'm falling,
Hoping that you feel this way too.
Said I'm falling,
Sitting here waiting for you.
