

Get Up

Iration

Get up, get up
At night we livin'
Get up, get up
Move up, move up
No need to give in
Move up, move up

You got to stand up,
In a time of regression
Find another way...
Stand up tall
Big or Small (yeah)
Ooh, be the dawn of your own day (yea)

(2x)

Get up, leave your bad man behind you
Move up, cause that's how they save tonight

She's feelin' low
She's feelin' trapped in a hole
Each day into the next we waste away
Moon goes down, and when time's gonna end (yea-yeah)
Live it til your livin's up, and don't pretend
Get up, get up, get up (3x)

(2x)

Get up, leave your bad man behind you
Move up, cause that's how they save tonight

Get up, get up
Move up, move up
