Iration

The big man has his money, said he can rule the world  
Buy his fancy car, and get the pretty girl  
Don't ya know... we're all the same size when the light turn out  
Can't be throwin' the stones when you live in glass house  
Time to stand up, and look alive  
Then you realize what life means, to you and me  
Cause I am you, you and me  
Said we can stand up, learn to be free  
Some of them are living in a Militant Style

So little man, just let your mind grow strong (and you'll go far)  
No time for rest, got to find out where you belong  
Don't let hard times steer you in the wrong  
Don't take to caution, to this man who can do you no harm, or  
A prisoner you'll be for life, in a Militant Style

No time for rest, said you got to find out where you belong  
Don't let hard times steer you in the wrong  
The time has come, pick up a weapon and fight, and
