

Remember

Iration

Yeeeeaaaahhhhhhhhhh

Do you remember, days when were tender
High and by would make you feel alright
Living in a concrete land
You gotta watch where you stand
Tough time appear for man

But never try, never grow
Life lost is life gone
Never forget where we coming from
Oh can you feel it too?
We movin through your speakers and we're burning right through
Yeah, we make you feel alright
Oh with the dance-hall moves
We bring it in closer, said we're in the right mood
Making sure you feel just fine, just fine...
Is this the groove that makes you feel just fine? (yeeeeaahh)
Is this the groove that makes you feel just fine? (whooooaaaa)

We keep them burning
While times keep turning
You know the fire's only just begun
And though we can't go along
Foundation's too strong
We're bringing every one of you along

Is this the groove that makes you feel just fine? (yeeeeaahh)
Is this the groove that makes you feel just fine? (whooooaaaa)
Is this the groove that makes you feel just fine? (too many people runnin' round)
Is this the groove that makes you feel just fine?
Just fine...
