

## This Old Song

Iration

This old song  
I'm singing you  
I can't stop  
I wanna be with you  
Same old tune  
Same old line  
Rivers run  
I'm running too  
I can't stop  
Don't know what I can do  
Same old moon  
Same old shine

Empty page of paper as I sit here in my room  
Waiting for a simple word but nothing's coming through  
Want to write about the truth and tell you that I've grown  
But no one wants to hear a song about being alone

Nothing I can say that hasn't all been said before  
I know I could say it now if you walked through the door  
I'd tell you what you mean to me I'd tell you that you are  
The only one that makes me wanna pick up my guitar and sing
