

## Uptown

## Iration

Ya trying to rock it uptown  
But I don't wanna come down  
I'm Gonna try to pick it up now  
Oh well

Stay a little longer  
Stare into the light  
Let the sound hold you  
Til the end of the night

And if you pour another drink for me  
I'll be leaving you behind  
One thing you gotta know now  
I'm the wandering kind

Feel it getting stronger  
Building inside  
Wanting it to crash through  
Like a wavering tide

And the more you try to blink you'll be  
Lost in your mind  
Cause if you're tryna rock uptown  
I'll be letting you slide
