

Be Your Number One

Irene Cara

(Be your number one)
(Be your number one)
(Number one, number one, number one)

You walk around everyday
You're the talk of the town
With your pretty face

I see you strut back and forth
When I see you around
It's me you ignore

I want to just talk to you, so don't you
Act surprised
I know you're watchin' me, too, I see it
In your eyes
It's just the way that I feel, ooh I can't wait
You've got me spinning around, make no mistake

You've got me running in the "out" door
Baby, can I be your number one
(Be your number one, be your number one)
You've got me running inside out, ooh
Baby, can I be your number one
(Be your number one, be your number one)

I'll get you boy, give it time
And you better believe
You're gonna be mine

It won't take long, with my ways
I won't do you no wrong
'Cause your my ba-by

I know you're watching me too, so
Don't act surprised
It's just the way that I feel, I see it in
Your eyes
I just want to talk to you, ooh, I can't wait
You've got me spinnin' around, make no mistake

You've got me running in the "out" door
Baby, can I be your number one
(Be your number one, be your number one)
You've got me running inside out, ooh
Baby, can I be your number one
(Be your number one, be your number one)

You've got me running in the "out" door
Baby, can I be your number one
(Be your number one, be your number one)
You've got me running inside out, ooh
Baby, can I be your number one
(Be your number one, be your number one)

I know you're watching me too, so
Don't act surprised

It's just the way that I feel, I see it in
Your eyes
I just want to talk to you, ooh, I can't wait
You've got me spinnin' around, make no mistake

You've got me running in the "out" door
Baby, can I be your number one
(Be your number one, be your number one)
You've got me running inside out, ooh
Baby, can I be your number one
(Be your number one, be your number one)
