

# Wheels Of Love

Iris DeMent

The wheels of love turn around and around  
Keep on rolling till you've found  
The perfect partner, somebody just right  
To have and hold every day and every night

So she's halfway to Texas with all of her dreams  
The world ain't as bad as what it might seem  
You got a whole lot of living, honey, left to do  
There's still a whole lot of love inside of you

The wheels of love turn around and around  
They'll take you for a ride like a merry-go-round  
Don't let the heartache hold you down  
When there's plenty of love left to be found on the wheels,  
Riding on the wheels of love

Catch you a ride imagine what you might find  
Just the right girl at just the right time  
Ready and waiting, she'll look you in the eyes  
Ah, but the wheels of love will never compromise

So she broke your heart, honey, don't look back  
You got to keep on rolling down the track  
And maybe the next time you'll keep your feet on the ground  
When the wheels of love spin you around

The wheels of love turn around and around  
They'll take you for a ride like a merry-go-round  
Don't let the heartache hold you down  
When there's plenty of love left to be found on the wheels,  
Riding on the wheels of love

The wheels of love turn around and around  
They'll take you for a ride like a merry-go-round  
Don't let the heartache hold you down  
When there's plenty of love left to be found on the wheels,  
Riding on the wheels of love

Oh, the wheels  
Riding on the wheels of love
