

Guide On Raging Stars

Iris

Know the feeling
No strange reason
You kneel, stars hang low
To them I go...

Many times I'd become lost
Many times I'd become damned
When the ways I can't explain
At once became my secret out
I'm an under levied cost
And I'm here to make amends
Where the universe explains it all the way I never can

Easily I'm yours
Night's dark outdoors
Guide on raging stars
I know who you are

Many times I'd become lost
Many times I'd become damned
When the ways I can't explain
At once became my secret out
I'm the under levied cost
Coming here to make amends
And the universe explains it all the way I never can

All the reasons I've come
All the searching I've done
'Cos I want to send you
All the life I've got (am I too late?)

Many times I'd become lost
Many times I'd become damned
When the ways I can't explain
At once became my secret out
I'm an under levied cost
And I'm here to make amends
Where the universe explains it all the way I never can
