

Hell's Coming With Me

Iris

They say that you're a fighting man
The one to keep an eye out for
And if I ever find you
I'll make you an example

We may go down in a blaze
You've got it coming either way

There's hell to pay
And it's coming with me
You learn the hard way
Ain't gonna be pretty

The further you can walk
The further I can see
And hell's coming with me

You make your final offering
I'll be your only taker
I've come to prepare the way
And send you to your maker

You very soon get erased
I deliver
It's ordained
