

No One Left To Lose

Iris

Just what am I doing here?
Help me with something I should know
Which of these ways am I to go?
I'm trying to settle out
Still on the search but all is grey
What if I've travelled all this way

To find out
You're still the one I want
You're still the one I need
What will I do if
I'm left
With nowhere else to go
And no one left to lose?

I look for some other face
But some other face has not arrived
God, I just wanna get it right
I don't want to think of it
Or try to imagine what I'll know
The way I'll feel down on the road

To find out
You're still the one I want
You're still the one I need
What will I do if
I'm left
With nowhere else to go
And no-one left to lose?

Meet me
On your off day
Show me where you
Cross my lost way
Show me now
Come around when a life is shamed without you

Maybe my heart is gone
Maybe my blood is laid to rest
