

Vacant

Iris

Deep inside
You're the rogue
While your soul's gone hiding

Dare you say
Here your love is won

In your age
Answers come
Still you're undecided

Hurting as your body comes to play
But you keep...

Living the same way
Cheating your mind's ache
Telling yourself your life isn't empty

Seek what you want or think that you need
But this life still won't be giving

Vacant stares
Hollow spin
Get you all excited

Left unseen
The one who you've become

You're in place
To find the wall
And without you knowing

There your tortured innocence has crawled
But you keep...

Living the same way
Cheating your mind's ache
Telling yourself your life isn't empty

Seek what you want or think that you need
But this life still won't be giving

Living the same way
Cheating your mind's ache
Telling yourself your life isn't empty

Seek what you want or think that you need
But this life still won't be giving
