

## Best Years of Our Life

Iron Butterfly

It was the best years of our life  
When we were children remember what it's like  
To bring back memories of the good things we once knew  
To be right, there's so much we gotta do

C'mon lift that heavy load of your shoulder  
There's many people like you and me  
That feel like there's a better place to be

Better leave, it's time to go now  
Better leave, forget you sorrows  
Come along, people get ready for  
Good time, head for tomorrow, pack up your bag

Here they come, coming to take a ride

When we were soft as light  
Those were the best years of our life  
When we laughed as life went by  
Those were the best years of our lives

Best years its time to go now  
Good times forget you sorrows  
Best years you better believe me baby, sunshine

Summertime and the midnight morning  
Feeling like a school child
