

Unconscious Power

Iron Butterfly

We all want to prepare you
The unbelievable is going to happen
It will linger in your mind forever
Let this carry you wherever, wherever

Triggering the unconscious power

Removing all your inhibitions
Releasing complete freedom of thought
Sensations of every sense will prepare
With this you will see every thing

Triggering the unconscious power

Triggering the unconscious power

I say to you nothin' for now
For now we know all
We know all
We know all
We know all
