

# Bridges Will Burn

Iron Fire

Cheap tongues and we don't believe a word  
By god our voices will be heard  
No second chance - no afterlife  
But we come from the land of miracles  
White light will shine from above  
Spellbind those who play it rough  
A broken soul, a broken heart  
Will be filled with the light of the unicorn

Ride holy knight in to metal evolution  
The time has come to revolution

The chosen one will soon become  
The master of the universe  
And then the gods will return  
The crimson king will draw the sword  
From the stone for eternity  
And then the gods will return  
And bridges will burn

Dark path for the lost and lonely one  
With dreams that shine like the sun  
The deepest fear, the darkest hour  
Will burn in the flames of victory  
Find the grail and then you find the king  
A search for the crown and the ring  
A battlefield, a sea of blood  
From the ashes a legend will arise

Ride holy knight in to metal evolution  
The time has come to revolution

The chosen one will soon become  
The master of the universe  
And then the gods will return  
The crimson king will draw the sword  
From the stone for eternity  
And then the gods will return  
And bridges will burn

We came at night ready to fight  
Embraced by black we came as strangers  
Send from the sky, we'll never die  
Bridges will burn in flames so high

We came at night ready to fight  
Embraced by black we came as strangers  
Send from the sky, we'll never die  
Bridges will burn in flames so high

Ride holy knight in to metal evolution  
The time has come to revolution  
And the bridges will burn  
Bridges will burn  
We will burn
