

# Here And Alive

Iron Fire

Stars are shining in the night  
The ancient sky shines so bright  
Will I find eternity  
Find the way to my destiny  
I'm not a mystery, or a wicked man  
To tell you the truth I don't give a damn  
Cause I'm the one, I will be strong  
Show them all that they are wrong

I will search until I reach my destination  
On a ride to the final station

Here and alive, here and alive  
I was born to survive  
Cause I'm here and alive, here and alive  
No time to say goodbye  
I'm here and alive

Unchained I will arise  
Embraced by the holy skies  
I will make them pray  
Never will I fade to grey

I will search until I reach my destination  
On a ride to the final station

Here and alive, here and alive  
I was born to survive  
Cause I'm here and alive, here and alive  
No time to say goodbye  
I'm here and alive

Here and alive, here and alive  
I was born to survive  
Cause I'm here and alive, here and alive  
No time to say goodbye  
I'm here and alive  
Miracle

The preacher once said  
we have to open up our eyes  
find a way, make all realize  
the end is near so tie the rope  
we need a miracle, it's our only hope

But I believe that there still is a little time  
for us to change before the world turns to dust

We need a miracle  
to save us all from judgement day  
A miracle we need  
I still believe in a miracle  
The time has come for us to pray  
for a miracle

The writings on the wall  
and the ancient prophecies

tell us the story of a destiny  
Every man has to pay for his sins  
Say goodnight before the nightmare begins

But I believe that there still is a little time  
for us to change before the world turns to dust

We need a miracle  
to save us all from judgement day  
A miracle we need  
I still believe in a miracle  
The time has come for us to pray  
for a miracle

We need a miracle  
to save us all from judgement day  
A miracle we need  
I still believe in a miracle  
The time has come for us to pray  
for a miracle
