

## Icecold Arion

## Iron Fire

A planet far away, long forgotten savage land  
Before the aliens became a part of the master plan  
A landscape of harmony ə so beautiful and crystal clear  
The arrival at Arion turned fire and ice into fear

Came as strangers and took the peace  
Sent on a mission; to spread the evil disease

At the ice-cold Arion  
Where the snow is falling down  
At the ice-cold Arion  
Keep the throne and the crown  
At the ice-cold Arion

A galaxy of pain, a twisted picture of the doctor's wrath  
One step closer to the Armageddon and the evil path  
When the line is crossed, there's no way back ə no return  
A frozen enemy deep in the snow ə hellfire will burn

Came as strangers and took the peace  
Sent on a mission; to spread the evil disease

At the ice-cold Arion  
Where the sky is turning black  
At the ice-cold Arion  
Feel the wind is coming back  
At the ice-cold Arion

Came as strangers and took the peace  
Sent on a mission; to spread the evil disease

Ice-cold Arion  
Where the snow is falling down  
Ice-cold Arion  
Keep the throne and the crown

Ice-cold Arion  
Where the sky is turning black  
At the ice-cold Arion  
Feel the wind coming back  
At the ice-cold Arion  
The ice-cold Arion  
The ice-cold Arion
