A planet far away, long forgotten savage land Before the aliens became a part of the master plan A landscape of harmony 9 so beautiful and crystal clear The arrival at Arion turned fire and ice into fear

Came as strangers and took the peace Sent on a mission; to spread the evil disease

At the ice-cold Arion
Where the snow is falling down
At the ice-cold Arion
Keep the throne and the crown
At the ice-cold Arion

A galaxy of pain, a twisted picture of the doctors wrath One step closer to the Armageddon and the evil path When the line is crossed, theres no way back a no return A frozen enemy deep in the snow a hellfire will burn

Came as strangers and took the peace Sent on a mission; to spread the evil disease

At the ice-cold Arion
Where the sky is turning black
At the ice-cold Arion
Feel the wind is coming back
At the ice-cold Arion

Came as strangers and took the peace Sent on a mission; to spread the evil disease

Ice-cold Arion
Where the snow is falling down
Ice-cold Arion
Keep the throne and the crown

Ice-cold Arion
Where the sky is turning black
At the ice-cold Arion
Feel the wind coming back
At the ice-cold Arion
The ice-cold Arion
The ice-cold Arion
