My Awakening

I can't find home I don't know my name I don't know the number Where do I go When nothing seems to make sense at all Close to break down Tell me what is going on I lost my crown Give me a reason for a new dawn

What is the mission for me now Tell me master tell me how Is this the final call In the dust I crawl Approaching mechanical break down

My awakening Turn on the light And bring me back again The voices from within Can this be right My satellite or my awakening (My awakening)

I don't recall my past The memories have disappeared Where or what I was The place where I belong is lost A race from deep within I need to find the answer A place of deadly sin In this hell I fight the cancer

What is the mission for me now Tell me master tell me how Is this the final call In the dust I crawl Approaching mechanical break down

My awakening Turn on the light And bring me back again The voices from within Can this be right My satellite or my awakening **Iron Fire**
