

# Reborn To Darkness

Iron Fire

The candle is burning out  
My life is near the end  
I will leave this earth  
And enter the underworld  
Years of suffering  
Days of misery  
God took everything  
Now feel my rage upon you

Legions of thunder  
Let the crusade begin  
We are many  
Born in sin  
Come on in

Reborn to darkness  
Reborn in the fire of evil  
Still flesh and blood  
But not human anymore  
Reborn to darkness  
Reborn in the shape of Lucifer  
I return in black  
Knock knock open up your door

Soon I am dying  
Oh how I long for peace  
But I will revenge  
Return as Lucifer  
Get ready for the storm  
Of the century  
Vengeance is beautiful  
God you will die

Legions of thunder  
Let the crusade begin  
We are many  
Born in sin  
Come on in

Reborn to darkness  
Reborn in the fire of evil  
Still flesh and blood  
But not human anymore  
Reborn to darkness  
Reborn in the shape of Lucifer  
I return in black  
Knock knock open up your door
