## **Riding Through Hell**

Dragged through the mud Hanged in the tree Drowned in the flood Stabbed in the knee Kicked in the face Burned in the night Lost out in space Still in the fight

Sent on a mission On a journey through the dark Travelling on my own A savage in blood and bone

Cursed by the dead Six feet below The soil is bloody red Where demons grow Banished from the hill In the underground In for the kill I am hell bound

Sent on a mission On a journey through the dark Travelling on my own A savage in blood and bone

Riding through hell One step closer to damnation Riding through hell Heading in the right direction Riding through hell Facing the flames of Armageddon Riding through hell Watch the burning sun go down
