

Como Estais Amigos

Iron Maiden

1. Co - mo esta amigo
For the death of those we don't know
Shall we kneel and say a prayer
They will never know we care
Shall we keep the fires burning
Shall we keep the flames alight
Shall we try to remember
What is wrong and what is right

R: No more teras
No more tears
If we live for a hundred years
Amigos no more tears

2. If we do forget them and
The sacrifice they made
Will the wickedness and
Sadness come to visit us again
Shall we dance the dance in sunlight
Shall we drink the wine of peace
Shall our tears be of joy
Shall we keep at bay the beast

R: No more teras...

*: Inside the scream is silent
Inside it must remain
No victory, no vanquished
Only horror, only pain

R: No more teras... (2x)
