

Reach Out

Iron Maiden

It's over your head
And you don't seem to understand
One word I say
And you can't live your life
Trying to run away

You're fighting your friends
Argue with everybody
But it never ends
You're wearing me out

R: Come on
Reach out
And let someone into your life

Don't get me wrong
You always apologize
It's just your way
Of making a scene
You need to be loved
It's not such a crime

R: Come on...

Over your head
You just don't seem to understand
One word I say
And you can't live your life
You got so much love
It's burning inside

R: Come on...
