

## Father Farewell

Iron Mask

A goodbye I can't believe  
Taken away too soon from me  
You stand in my heart and soul  
Love is stronger than death

You were my father, my best friend  
But you left without farewell  
I just hope it's not the end  
Do you feel my endless pain?  
Only memories remain

One day I can't forget  
You were so lonely, I've been so late  
You stay my father, my best friend  
In Heaven, we'll all meet again

You were my father, my best friend  
But you left without farewell  
I just hope it's not the end  
Do you feel my endless pain?  
Only memories remain
